I have examined the above and found the same,  
 to be the best of my knowledge and belief correct.  
 ALFRED C. HOCKING, Auditor

# Auditor's Report

---

Citizens of the Town of St. George, Maine:

Having been appointed your auditor for the fiscal year ending Feb., 1925, I wish to submit the following report:

I have examined the accounts of your officers and find vouchers and itemized bills for all money paid out by your Treasurer. In submitting this report I wish to state however, that the Selectmen have drawn road orders amounting to \$938.38 over and above the Road Commissioner's orders, of this amount \$513.13 being expended under the supervision of your Road Commissioner. I find a difference of fifty cents in the Selectmen's Road orders and the Treasurer's account, the Treasurer having paid fifty cents less than the order called for. With the exception of the above mentioned items your officers accounts compare with each other.

Your report shows the Liabilities at the close of this year to be \$6439.43 as compared with last years of \$11,939.36 which shows we are \$5499.93 better off than a year ago. There are two items which should be mentioned, as these items are in part responsible for our present standing. First, our schools did not start this year until Jan. 26th, and secondly, your Selectmen through a good deal of effort succeeded in getting the State to reimburse your Town, for a part of the Ojala bill, which the Town had in previous years furnished. This amounted in round figures to \$900.00 and your

Selectmen should be complimented for this service.

I also would like to make a suggestion, which is, that your Road Commissioner use a payroll system (This system is at present carried out by your Superintendent of Schools). By using this payroll system, your Road Commissioner will be able to make a weekly or a semi-monthly report to the Selectmen, showing amount expended in each department, number of days, rate of wages, and to whom paid and his order attached thereto, to cover the amount of the disbursements. Individual orders drawn from this payroll by the Selectmen can be forwarded to the Treasurer who in turn will forward checks payable to the person for whom the order is drawn. This in my opinion will very much simplify the handling of these accounts.

This is only a suggestion, and I trust you will accept it as such.

Respectfully yours

ALFRED C. HOCKING, Auditor

	\$315 00

In closing my report to the citizens of St. George I want to call your attention to the necessity of raising a special amount to clear roads of bushes. We had in this town on April 1st, 224 cars and trucks valued at \$45,365.00. The tax on same was \$1,950.69. We raised \$1,150.00 for 31 miles of roads. I would suggest that the sum of \$500.00 be raised for clearing roads of bushes. I would also suggest that the sum of \$2,000.000 be raised for common roads irrespective of all special amounts raised for roads.

Respectfully submitted

ALBERT J. RAWLEY

## REPORT OF SUPERINTENDENT

To the Superintending School Committee and Citizens of St. George:

During the past year the work of our schools has on the whole been satisfactory, and good progress has been made, with no marked changes in our methods of instruction.

The equalization money from the state for the school year of 1923-4 was granted for the purpose of increasing the length of the school year. Accordingly the Spring term was longer than in past years.

For various reasons it seemed expedient to have a long Fall term and a Winter vacation. There is a question if this policy might not be extended. The months of January and February are cold and it is difficult to get the children to school, especially where they are brought to school in boats.

Efforts have been made to improve the quality of the teaching force. At the beginning of the Fall term there was no teacher in town without some experience or professional training.

Last year when the Town Report appeared, pay-rolls to the amount of thirteen hundred dollars had been paid after the books were closed, and several hundred dollars had been received from the Equalization fund to increase the length of the school year, and had been spent for current school expenses. The money to pay for the extra time was taken from the school appropriation later.

The present apparent balance in the Common School account would not exist had the winter term began earlier or if the sum of five hundred dollars of the State School fund had been placed in the High School account as has been done in the past

and should be done in the future.

Moreover the bill for tuition of St. George attending the school at Seal Harbor for the year of 1923-24 has not been presented. In previous years this has been between one hundred and fifty and two hundred dollars.

In the latter part of the Spring term Miss Sawyer, a Red Cross nurse from Rockland examined the school children of the town through the kindness of the Red Cross society of St. George. Many of the children were found to have bad teeth and enlarged tonsils. It is believed that many of the children whose parents were notified of the need have been attended to. This should be but the beginning of a most important work. These defects of a physical nature prevent many of the children from doing good work at school and endanger the child's health.

### HIGH SCHOOL

The work of the High School has been especially satisfactory. The teachers are efficient and conscientious and there is a finer spirit of cooperation than in some previous years. The curriculum has been considerably altered in the past three years and another year should show still further improvement.

Last June a class of five young persons was graduated. This class in ability and scholarship was a credit to our school system. During the spring the class made the memorable visit to Washington under the chaperonage of Mrs. Archer, who had done so much toward making the trip possible.

### TEXTBOOKS

Both the Common Schools and the High School

have more and better books than they had a few years ago, and during the next years as in the past year the needs will not be so great as they were between 1921 and 1923. It should be remembered that the life of a school book is short and the yearly wear and tear is considerable.

The changing of the course of study in the High School and the increase in the number of pupils necessitates the purchase of many new books..

### REPAIRS

The installation of lights in the High School building and the building of the toilets at Port Clyde have been the outstanding jobs in the work on school buildings this year, and took over half the money raised for repairs.

The grounds at the rear of the Port Clyde school grounds should be drained and the hollow around the toilets and woodshed should be filled in. The pool of filthy water that has backed up on the land of Mr. Carter has been an offense to the neighborhood for years, and must be unsanitary for the pupils being so near the schoolhouse and playground.

The toilet building at Martinsville school which was moved from the rear of the high school lot by a public spirited citizen should be divided into compartments for the sexes, placed over cement foundations and connected with the school building.

A similar work should be done at Clark Island where the present building could be utilized. At the latter place the school grounds have been improved through the efforts of the teacher and pupils aided by friends.

The school buildings are for the most part much in

need of paint. In recent years the appropriations for repairs have been inadequate. After the amounts needed for toilets, lights, cleaning and small sundries like setting glass and oil for floors have been taken out very little remains.

The High School building is greatly in need of repairs and it is hard to tell just where one will be able to stop when repairs of this sort are begun. Unless there is a greatly increased appropriation for repairs, there must be a special appropriation for this building, if anything is to be done.

Several of the old school buildings were sold in the fall. Some of these might have been repaired for a possible future need, but our funds did not permit the proper maintainance of the buildings actually in use.

Certain needs to which I called attention last year still exist. None of our schoolhouses are up to the standard in heating or lighting. Work along these lines should be started soon as it must be done gradually. It is better for the present however to spend our repair money on work which will prevent deterioration of our buildings and increased expenditures later.

I thank the members of the Committee and all others who have assisted in the work of the schools.

Respectfully submitted

F. L. S. MORSE  
Superintendent of Schools

# Town Warrant

Knox, ss.:—

To Granville Bachelder, a constable of St. George, in said County.

Greeting:

In the name of the State of Maine, you are hereby required to notify, and warn the inhabitants of the Town of St. George qualified by law, to vote in Town affairs, to assemble in the schoolhouse, in said Town on Monday, the (second) day of March, 1925, at (nine) o'clock in the forenoon, to act on the following articles, to wit:

Art. 1. To elect a Moderator to preside at said meeting. *H. J. Bachelder*

Art. 2. To elect a Town Clerk, for the ensuing year. *C. E. Wheeler. No opposition*

Art. 3. To see if the town will vote to accept the reports of the Selectmen, Treasurer, Town Clerk, Superintendent of Schools and Road Commissioner.

Art. 4. To elect (three) members of the Board of Selectmen, Assessors, and Overseers of the Poor, (Treasurer) one or more members of the Schoolboard, Auditor, (Tax Collector) Road Commissioner, Fire Wards, and necessary Town Officers, fix their compensation, and raise a sum of money for the same.

Art. 5. To see what sum the town will vote to raise for the support of common schools. *\$5800.00*

Art. 6. To see what sum of money the town will vote to raise for the repairs of school buildings for the ensuing year. Recommended *\$600.00*

Art. 7. To see what sum of money the town will vote to raise for free textbooks. Recommended *\$400.00*

Art. 8. To see what sum of money the town will

*Recommendation \$100.00 (Extra from last year)*  
*Tax Collector 6 1/2% commutation or same as last year.*

vote to raise for the support of the free High school for the ensuing year. Recommended. \$2100.00

Art. 9. To see what sum of money the town will vote to raise for school, insurance, apparatus and appliance for the ensuing year. Recommended. \$150.00

Art. 10. To see what sum of money the town will vote to raise for janitor service in the High school building for the ensuing year. Recommended. \$100.00

Art. 11. To see what sum of money the town will vote to raise for fuel for High School building for the ensuing year. Recommended. \$250.00
